Those present were Misses Anna and Louise Hughes, Pearl and Anna Bell Holland, Gussie Lee, Ann Johnston, Fred Lee, Kate McDougald, Mesdames Grover Brannen, W. F. Whately, Lester Brannen, Miss Meta Kennedy, Miss Inez Peak and Mrs. Eugene Wallace were the invited guests.

**SURPRISE BIRTHDAY.**  
Last Saturday Mrs. W. J. Clanton was busy quilting when her children and a few neighbors rode up to the gate, telling her they had come to spend the day with her, as it was her sixty-fourth birthday. She was certainly surprised, but she soon realized that it was no joke, for the good people began to bring in their boxes and baskets and dinner was placed on a long table in the back yard and eighty-five gathered around to partake of the dainties.

All the children were present except Mr. and Mrs. C. B. Clanton, of Jacksonville, Fla. A few of the grand-children were absent.

The day was spent in music and conversation. Mrs. Clanton says she will enjoy her next birthday more if we will let her know we are coming.

A GUEST.

## MRS. W. E. LAKE, JR.

Mrs. W. E. Lake, Jr., aged 24, died at an early hour on Sunday morning at her home in Barnwell, S. C., after an illness of only a week.

Mrs. Lake is well remembered here before her marriage as Miss Emma McCoy, daughter of Mrs. D. F. McCoy. Her death has brought the bitter cup of sorrow to the lips of hundreds of friends and relatives in Statesboro.

The remains were brought to Statesboro Sunday afternoon, and funeral services were held at the Baptist church Monday morning at 11 o'clock. Rev. J. F. Singleton officiating. Interment was at East Side cemetery. Many beautiful offerings were made.

Besides her husband, Mr. W. E. Lake, she leaves a little daughter, Elizabeth, just twenty-two months old, mother, Mrs. D. F. McCoy, and one sister, Mrs. J. L. Sample, of Hampton, S. C., and three brothers, Messrs. Milledge, George and Leamon, all of this city.

J. C. SMITH.

Mr. J. C. Smith, a planter of the Emitt district, died at his home Sunday night after a short illness of pneumonia. He leaves a wife and five children, the youngest being only a few months old.

GLENN BRANNEN.

On Feb. 17th, the death angel visited the home of Mr. and Mrs. W. Brannen and took from them their 17-year-old son, Glenn. The interment being at Lower Lotts Creek cemetery. Funeral services were conducted by Eld. Willie Anderson. The family have the sympathy of their relatives and friends.

**MRS. S. E. JOHNSON.**  
Mrs. S. E. Johnson, of Pulaski, died at the local sanitarium Saturday afternoon. She had been in ill health for two months or longer. Interment was at East Side cemetery, Rev. T. J. Cobb officiating.

**CARD OF THANKS.**  
Mrs. W. A. Downey and relatives wish to express their most sincere thanks to their many friends in Statesboro for their kindness shown in their recent bereavement.

**CARD OF THANKS.**  
I wish to thank all the good people of our neighborhood for their kindness during the illness and death of my wife and baby. Especially do I thank Mr. and Mrs. A. B. DeLoach, Mr. and Mrs. W. M. Shumans and mother, and Mr. T. L. Smith and brother and wife.

My wife was ill forty-three days and passed out of this world to meet our little baby which passed away fourteen days before her. We wish to prepare ourselves to meet them in the far beyond, where our troubles shall be no more.

It was God's will that they must go, and His will be done, not ours. It was hard to say farewell to loved ones but they have paid the debt that we all must pay, and I wish the prayers of all the good people.

Respectfully,  
Thos. W. Williams.

**STATESBORO MAN DOING HIS DUTY.**

"For two years I suffered agonizing pains in my stomach, belching up sour and bitter fluids and gas. Tongue always coated. Doctors were unable to help me. The first dose of May's Wonderful Remedy made me feel 100 per cent better, and I am now feeling better than at any time in my life. I deem it my duty to advise other sufferers. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. Sold in Statesboro by W. H. Ellis Co."

(7Feb-4t)

Washington, March 4.—Military action by Japan in Eastern Siberia to check German influence and protect war stores at Vladivostok is believed here to be imminent. The United States has not yet expressed its views on the proposed step, but it is said in diplomatic quarters tonight that the Japanese probably would move quickly to meet emergency conditions, leaving to the pending diplomatic exchanges development of an understanding with America and all the allies upon the scope and purposes of the enterprise.

While it has no direct bearing upon the situation in Asiatic Russia, the news which came today to the Swedish legation that Germany has given notice of her intention to occupy the whole of Finland will tend to hasten an agreement upon Japan's plans. The German explanation to the Swedish foreign office which has protested against the proceeding, that the occupation is to restore order and without intent to take permanent possession, is regarded as a very clear indication of what the Germans may undertake in any part of Russia now that the Bolsheviks have been forced to accept their hard peace terms.

Officials and diplomats here profess ignorance of what preparations have been made by Japan for the operations about to be undertaken. As a matter of course secrecy has been observed. In this connection it is recalled that at the beginning of the Russo-Japanese war the Japanese acted without heralding. Before there was any such formality as a declaration of war, a Russian fleet had been smashed and the war was half won.

It has been stated in official quarters that this is no concern of the allies nor of America how Japan goes about the task, once the question of policy is settled. If the decision is reached to give Japan a free hand in eastern Siberia, it is conceded now that no other military or naval power is in position to render her any substantial aid owing to the lack of available forces.

In a diplomatic way the situation has remained unchanged since the middle of last week. The state department has not indicated to the Japanese government what may be its view of the new situation created by the signing of peace treaties by the Bolsheviks. The statement made recently by Viscount Motono that Japan had a working agreement with the entente allies and America in regard to this question, it is said, has been taken too literally. #### COUNTY SCHOOL NEWS.

Those teachers who try have secured quite a number of their students as members of the Junior Red Cross which is commendable. Every child should be a member. Too, teachers certainly should be patriotic enough to encourage the children to buy the War Savings Stamps or Thrift Stamps. Every fellow has something to do to win this war and the sooner we realize the fact, the better it will be for us. Food will win this war and for that reason, we should encourage the girls to do canning club work, poultry club work and the boys to join the pig club and calf club together with the corn club. Now is the time—not later on.

Several schools began last October and early in November and terms will soon be out. And right here, I wish to say that teachers and patrons should not desire to prepare the usual school closing dinners as to do so will be an enormous cost to essential foods that we need to save if not for ourselves and families then for our soldier boys. I think it will be real nice to have, during the war, afternoon exercises instead of the all-day closings we have become accustomed to having. Don't you?

At the Sunny Side on last Friday evening there was a box supper given by Misses Jones and Groover that was an enjoyable affair. A quartet composed of Messrs. Williams, Akins, Kennedy and Groover rendered several beautiful numbers that were enjoyed by all present. The sum of \$98.00 was raised with which to add new equipment, etc., such as the teachers see that they need. Sunny Side is having one of the best schools in its history.

There were several other box suppers this week that have not been reported. Will tell you of their luck in the next issue.

Miss Hortense Harris is very much pleased at the interest being manifested by the boys and girls as to the canning and poultry club work this year. She has already a goodly number of boys and girls that want to do something and they are joining daily. Those of you between the ages of ten and eighteen who have not met Miss Harris and wish to join the club just send your names and she will be glad to help you and give you information that will be very valuable to you.

#### TEACHERS WHO ARE WILLING TO TEACH

Teachers who are willing to teach in dirty houses and trashy yards, cannot in my opinion, do very much real good to the children in their charge. Occasionally we see a school house that looks as if it needed a good housekeeper and some one to remove the accumulated paper and other trash from the yards. If you have not seen such conditions, open your eyes and look around you. Just a very few feet this way now. If your school house is not clean and free from trash, clean it up. If the yards are filled with paper and trash, have it removed.

In some sections, it is custom of certain vagabonds to make nightly visits to the school house and proceed to tear things up in general. Such are not to be tolerated. If you have a school house in such a condition, it is an uncleaned imp can think of to do. If I can find proof to convict on any such person, I will give a reward of fifty dollars. Teachers meeting with such luck should immediately report the fact to the trustees and patrons and have them get busy to locate the party or parties who are doing these things and let us put an end to it. It can be done and MUST be done.

#### FEED OUT YOUR HOGS SIX WEEKS EARLIER

In every lot of hogs on feed two or three weeks quickly and actually cost less than others. If all would fatten like these, the entire drove would be ready for the market six weeks earlier and save six weeks feed in an item as simple as harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the (infamous) mucus which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will relieve money refunded. W. H. Ellis Co., druggists, Statesboro, Ga.

Spring is Nice, But—Lack of fresh vegetable food and these trying weeks for anyone inclined to constipation. Foley Cathartic Tablets are just the thing for indigestion, biliousness, gas on stomach, furred tongue, headache, or other condition indicating clogged bowels. Cause no bad after effects. Sold by Bulloch Drug Co.

In England the flour imported from the United States, by the direction of the food controller, is not allowed to be sold by retail or to be used for any purpose except when mixed with flour milled and mixed in the United Kingdom in accordance with the regulations there. The proportion of imported flour shall not exceed 25 percent. American flour is selling in Liverpool at \$10.85, as compared with an average price in the United States of from \$10.50 to \$11.00 per barrel.

**SUFFERING FROM COLD**  
If you shiver in frosty weather, if you have cold hands and feet, if colds are stubborn and frequent, then your blood may be thin and impoverished.

**SCOT'S EMULSION**  
has been correcting this condition for nearly fifty years. It possesses rare powers for creating natural body warmth, for charging summer blood with winter richness and strengthening both throat and lungs.

### HARRIS GETS OVATION AT MACON MEETING

Twenty daily newspapers in STATE ARE SUPPORTING HIS CANDIDACY.

Twenty-four daily newspapers are published in Georgia. Nineteen of these are supporting William F. Harris for the United States Senate against Thomas W. Hardwick. Among the five which have not announced in support of his candidacy are the three Atlanta newspapers. All of these, as well as the other two, are strong supporters of the Wilson administration. They are not against Mr. Harris. They simply are neutral for the present. Friends of Mr. Harris confidently expect that all these five will come out for him in the very near future.

One of the striking features of the recent food production rally held in Macon was the almost continuous ovation given to Mr. Harris. In the hotel lobbies, at the Macon auditorium, on the sidewalk, in the dining room—in fact wherever he went—Mr. Harris was the center of a group of enthusiastic friends and supporters.

Enemies of Mr. Harris are endeavoring to create the impression that he will not stay in the race to the finish. The complete and obvious answer to this canard is the fact that he has resigned his position as chairman of the Federal Trade Commission to take effect May 31, so that he can devote his entire time to the senatorial campaign. Of course it goes without saying that Mr. Harris would not surrender this important post, one of the most influential in Washington, and one which affords him splendid opportunity for constructive work, unless he had made up his mind to run for the senate.

Probably no candidate in Georgia ever launched a campaign with such unanimous and enthusiastic support by the press as Mr. Harris is receiving even at this early stage of the contest.

#### STATESBORO HOUSEWIFE CHANGED FROM GLOOM TO CHEER

"My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself, but did not want to leave my three little children who needed a mother's care. A cousin in California wrote me about May's Wonderful Remedy and I took a course of it. I have since been entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the (infamous) mucus which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will relieve money refunded. W. H. Ellis Co., druggists, Statesboro, Ga.

#### HOW TO REMEMBER MEATS ARE FORBIDDEN

An easy way to remember the kinds of meat to save for soldiers by avoiding on needless days and at needless meals is this:  
All the animals included in the Food Administration's meat saving efforts have hoofs.  
Meatless, by official definition means without hogs, cattle or sheep products.

But all of the common animal foods authorized as meat substitutes are hoofless. These include garbanzo such as rabbit, and Belgian hare, poultry fish and other seafoods.  
The food administration has not truck chicken off the list of its meat substitutes, but has merely placed a protection to increase this production of eggs and poultry.

ANNOUNCEMENT.  
I again offer myself a candidate as a member of the board of county commissioners, subject to the primary of April 3rd. If my efforts to serve the people of Bulloch county during the past have met the approval of the voters, I shall appreciate an expression of approval at the polls.

## RUSSIA SIGNS TERMS.

At last poor old Russia has been driven into a corner and forced to sign peace terms. The end was inevitable, though it came slowly, from the time Trotsky and his followers succeeded in overthrowing the government. He was not lacking in intellect, yet his dreams were impracticable. If he understood his own plans, he evidently did not understand the adversary with whom he was combating. He deserted his allies in order to make peace with Germany on terms which he hoped would be to his advantage, and he ought to have been able to have done this. But Germany was not playing for futures so much as what she had in sight. When Trotsky quit fighting, it was the easier to take what he had, and Germany proceeded to do it. Trotsky's pleadings were in vain, he had been the pleadings of innocent Belgians and other neutrals from the very beginning. Necessity knows no law with Germany, and the law of mercy and justice are not on her statute books. Trotsky has found this out now, but it is too late.

But the advantage which Germany has gained in the Russian surrender will not be overwhelming. The allies are going to win in spite of Trotsky's desertion. We shall yet hear him call to the allies for help, but it will be far better that he helped himself while the helping was good.

## PAROLE FOR MRS. GODBEE.

A commission authorized to advise with the governor, has recommended a parole for Mrs. Godbee, the Milken murderer who slew her divorced husband and his bride in the streets of that city a few years ago.

Gov. Dorsey will probably heed the recommendation. It would be difficult to do otherwise. There is only one ground on which to base such action, the ground of insanity. Mrs. Godbee showed no mercy for her husband and his wife, neither of whom had sought to do her wrong. Not content to live with him, she had divorced him and he had gone his way, to make out of life the best that he could.

The young woman who had joined her husband with his after his first wife had turned her back to him, was not an impostor. She had a right to take that which the other woman had discarded, and she did it. The venom that was in the soul of Mrs. Godbee led her to desperation, and she slew the pair in cold blood. A jury said it was murder, and so it was.

Mercy is a thing of beauty, and the woman, now broken in health, may be his beneficiary, though she was a stranger to its beauty when it was in her hands to bestow.

## UPSHAW'S CHALLENGE.

Hon. W. D. Upshaw has issued a challenge to Hon. W. J. Harris to enter a preferential primary in the state between them to ascertain which shall oppose Hardwick for the United States senate. He declares his love of a country makes him unwilling that a possibility should exist that Hardwick should be re-elected, and he wants his and Mr. Harris's friends to say who shall defeat him.

New Mr. Upshaw's proposition looks mighty fair until you look under the cover to see what it will bring. In reality, the plan would be the best possible aid to Mr. Hardwick instead of a hindrance. There can be no primary in which the supporters of Mr. Hardwick will not be permitted to participate. Instead of their voting for the man whom they regard as the most available to defeat Mr. Hardwick, they would vote for the one whom he had the best chance to defeat in the regular primary. With the balance of power anywhere near equal between Messrs. Harris and Upshaw, a few thousand Hardwick voters would turn the balance in favor of the weaker of the two and then help to defeat him in the contest between them and Hardwick.

Mr. Upshaw's plan sounds all right, but it is bogus. If he wishes to defeat Hardwick, the best thing to do is to get out of the way and let a man do the running who has the best chance before the people of Georgia.

That man is W. J. Harris.

# CALL IS ISSUED FOR 10,000 MEN

MECHANICS AND OTHER SKILLED WORKERS ARE NEEDED AT ONCE.

Washington, March 4.—Call was issued today for 10,000 machinists, mechanics, chauffeurs and other skilled workmen needed at once by the aviation section of the signal corps, it was stated, and announcements must be obtained from the same classes in the near future.

"Men registered in the draft," said the announcement, "may be inducted into this service by applying to their local draft board. Men not registered, or who may enlist at any recruiting office."

The present call is especially for machinists, auto-mechanics, engine repairmen, gunsmiths, chauffeurs, carpenters, blacksmiths, tinmen, cabinet makers, electricians, coppermiths, sheet metal workers, propeller makers, wireless operators and constructors, tailors, tentmakers, sailmakers, truck makers, vulcanizers, welders and markers, repairers and installers of magnetos, ignition systems, cameras, watches, clocks, instruments and typewriters.

## THIS YOUNG MAN WAS READY TO DO HIS BIT

Washington, March 4.—Uncle Sam has a use for the services of a perfectly good spy if he wants them. Peter Rivers, aged 17 years, of Maple Lake, Minn., says so.

Writing to U. S. Marine Corps headquarters, Peter said, among other things, "I'm too young to be a soldier but I can be the best spy you ever saw. Send me along a spy's badge and a Colt's .45 and I'll go right to work. I've read history and my only regret is that I haven't nine lives like a cat so that I can give them all to my country."

MAYOR ROUNTREE HAS BUSY SESSION MONDAY

Monday matinee in Mayor Rountree's court was a live occasion, more than the usual number of offenders coming up for hearing. Fines were imposed ranging from \$5.00 to \$10.00, and a neat sum was turned into the city treasury.

One white man named Lee was given a fine for driving his automobile on the streets while intoxicated, having piled guilty to the charge; and another was fined for driving his wagon while drunk. A negro man was assessed \$5.00 for driving his car without headlights at night.

Dallis Brown and Roy Foster, both colored, were fined for a little misunderstanding on "Nab Row" during which Brown hit Foster on the head with a brick. He was made to pay \$10.00 for the lick, and Foster was fined a similar amount for being drunk.

Supported by a vigilant police corps, Mayor Rountree is determined to uphold the rules of the city.

BRUNSON AGAIN ANNOUNCES.

The announcement of Mr. J. V. Brunson for re-election as county commissioner appears in this issue, and will be noted with interest by Brunson is now completing his second term, having been appointed first by the judge of the superior court to fill an unexpired term, and was later elected by vote of the people. He has been chairman of the board for a long time, and is thoroughly imbued with the good roads spirit. He never loses an opportunity to manifest his interest in the advancement of the county's welfare.

SIS MILLER PLEADS GUILTY AND PAYS STIFF FINE

Entering a plea of guilty to the charge of violating the prohibition law, Sis Miller was given a fine of \$300 in Judge Proctor's court yesterday, which she paid promptly. Sis had a house on "Nab Row" with apartments in the chimney corner, where the sheriff and Deputy Mitchell visited her place a few evenings ago they found more liquor concealed than the law allows. She gave a bond of \$500 for her appearance in the court, and yesterday when the fine was assessed she promptly plunked down the cash. Evidently business has been good at her place.

STATSBORO COLORED MAN ON STATE TEACHERS BOARD

William James, principal of the Statesboro Industrial High School, was signaled honored at the meeting in Savannah last week when the State Association of Negroes was organized, he being made vice-president of the organization. James has been engaged in industrial school work here for a number of years, and has brought his school to a place where it commands attention. He now has an attendance of 250 pupils, with a faculty of seven teachers. A domestic science instructor is provided by an endowment from the Slater Fund, which has been procured by the school.

# SHARPE BUYS MAJORITY HOTEL JACCKEL HOTEL

ADDITIONAL BUILDINGS TO BE ERECTED ON LOT ADJOINING HOTEL AT EARLY DATE.

Announcement of the purchase of the controlling interest in the Jackel Hotel by W. H. Sharpe will be made at the meeting of the board of directors, consummated through the C. E. Cone Real Estate Agency last Saturday, and is understood to comprise six-sevenths of the capital stock of the hotel company, being the interests heretofore held by J. A. Brannen. The other one-seventh of the stock is held by a number of persons in small blocks.

The deal involves between thirty and forty thousand dollars.

Mr. Sharpe has not stated definitely his plans with reference to the property, yet has in mind some extensive improvements and additions at an early date. The lot adjoining on the west will be built up in brick, possibly as a store building or a play house.

No change in the management of the hotel will be brought about by the transfer of the stock.

### ENOUGH PIGS BORN TO FEED ALL GEORGIA

NO NEED TO IMPORT MEAT INTO STATE IF ALL ARE GROWN TO MATURITY.

Enough pigs are born each year in Georgia which, if saved and fed out to two hundred pounds, would feed the people of the state. Georgia would not have to buy pork if all the pigs born were saved and well fed. In other words, the money sent

out of the state for hog meat is unnecessary.

In normal times it is the custom to turn bred sows into the woods and swamps about this time. No particular attention is given them while farrowing and how many pigs are lost by this practice is not known, but it costs Georgia a lot of money for meat.

Georgia needs every pig born this spring for meat. Don't turn the bred sows out to find pigs in the woods and swamps where buzzards will kill them or the sows will mash half of them. Provide a clean, floored shelter for the pigs born and well fed. In other words, the money sent

sides six inches above the floor to protect the pigs when the mother lies down. Don't give any feed for 24 hours after farrowing, but provide clean water to drink. Feed light for a few days, gradually increasing the quantity as the pigs grow stronger. Feed a pouring slop and not too much corn, as the latter does not produce milk. Handle them easily and be kind.

If doing this extra work to save the pigs and make more meat seems like drudgery, just think of our Georgia boys in the trenches. As Mr. Hoover says: "While our army is forming over there, the great home army should be recruiting for its spring drive to produce the greatest crop this country has ever known."

Food will win the war. A fat pig is worth as much as a big shell. Do YOUR part for OUR boys' sake. Save the little pig this month. Watch the sows at farrowing time. Have them in a clean, dry, floored pen where you can tend them yourself, instead of out in the woods. Avoid narrow doorways, slippery floors and high sills. They mean dead pigs at farrowing time.

For advice on hog raising, address the Georgia State College of Agriculture, Athens, Ga.

Forgot What He Needed.

From the Republican, Mt. Gilad, Ohio: The editor had an interesting experience some time ago, when a young gentleman came to this office and asked for a copy of the Morrow County Republican. He scrutinized it carefully when a copy was handed him, and then said: "Now I know!" "What is it you are looking for?" we inquired. "My wife sent me after a bottle of Chamberlain's Cough Remedy, and I forgot the name. I went to several stores and the clerks named over everything in the line on the shelf except Chamberlain's. I'll try again, and I'll never go home without Chamberlain's Cough Remedy." The Republican would suggest to the proprietors of stores that they post their clerks, and never let them substitute. Customers lose faith in stores where substituting is permitted, to say nothing of the injuries to makers of good goods and the disappointment of customers.

### FLOUR CARD STILL ISSUED TO FARMERS

COMPLAINT FROM MANY SECTIONS ARISES FROM MIS-UNDERSTANDING.

Atlanta, Mar. 5.—The card permit to farmers for exemption from the requirement to purchase simultaneously equal weight of off-set serials, is still in force and effect. Dealers, wholesale and retail are required by order of the Food Administration to respect and honor the permits when properly signed and presented and to retain each permit as his authority for each such transaction.

From several points in the state complaint has come to the office of the Food Administration that individual retail dealers have declined to accept and honor flour permits. Investigation has shown that some of these cases spring from lack of understanding and these have been set right by proper information. Others have been cited to show cause in Atlanta on a fixed date why they should not be ruled for violation of regulations. The flour purchase permit issued to farmers is an order of the Federal Food Administrator of Georgia, approved and adopted by the United States Food Administrator, and stands while in force with the same effect as other federal laws. The card must be honored and respected.

## Tested Warriors of the Road

THE soldier must be tried in the fire of battle to be a tested warrior; the tire must be tried in the fire of the road to be a tested tire.

GOODRICH TESTED TIRES

That is the Goodrich idea of a tire. Therefore, Goodrich Test Car Fleets, six of them, for a year hammered Goodrich Tires from state to state, putting them to the road test of rock, sand, and gravel. The tires emerged tested warriors of the road, from a grand mileage of 4,173,744 tire miles.

They triumphed, SILVERTOWN CORDS and BLACK SAFETY TREADS, with an endurance that doubled Goodrich's pride in the structure of the spiral wrapped, cable-cord tire body, and the toughness of the cross-barred, close-clutch non-skid black safety tread.

Get this assured service of proven service by getting the conquerors of America's roads. Get "America's Tested Tires," and you get long mileage and dependability wherever you take your car.

Results of the widespread message sent to the people of this section by the Board of Trade and twenty-eight leading business firms, have been observed already in the vast number of inquiries received by the Board of Trade and the business firms. The idea underlying the campaign is to be of some service to you and your community.

Just as an example: Recently a South Georgian who had a large quantity of milk for sale, wrote to the Board of Trade. This organization found a dairy to handle 100 gallons of milk per day. That man is now a booster for the Board of Trade. There is a great demand here for milk and so far it has been hard to get the supply. If you have large quantities of milk for sale write the Board of Trade and let them find a market through one of the dairies.

Here's another example: A woman in South Georgia who sells eggs wrote the Board of Trade to find containers in which to ship the eggs. The information was forwarded her; she found someone here who supplied containers. Both of these examples may be small but the Board of Trade offers its services to you free of charge, just as in the two cases above. In other words there is always something which the Board of Trade and the leading business firms on this page can do for you regardless of what you have to sell or buy.

One man in South Georgia wanted to dispose of his farm products. He wrote the Board of Trade and received a Farmer's Sell Guide, which is issued by the Board of Trade. In it he found the name of a concern to whom he has sent all his produce. He also appreciates the service rendered by the Board of Trade.

To make it plain, the Board of Trade is prepared to handle anything you raise except sweet potatoes (and next season it is hoped to have a warehouse here for that particular crop). All you have to do is to ask and the Board of Trade will let you know if there is any possible way of doing it.

Most of the advertisers on this page have reported numerous inquiries and a consequent increase in business. They are at your service just as much as the Board of Trade and wish you to call on them whenever you need anything. All they ask is a fair trial—they will do the rest.

Shipbuilding in Savannah has greatly increased the demand for timber from this section. In addition it has created a strong demand for labor and this in turn has resulted in higher wages. The shipbuilding companies now established offer exceptional opportunities for white men capable of learning carpentry and steel work. These companies prefer experienced men but have arranged to take men and train them under skilled instructors for this special type of work. Before you come to Savannah to look for this kind of work it is advisable that you write the Board of Trade who will turn your letter over to the proper companies. They in turn will communicate with you if your services can be utilized. It is always better to write ahead before making any change as this will give you a better insight into actual conditions than you could obtain in other ways. While there is a strong demand for labor there is always a time when labor is plentiful, and it would not be fair to yourself or to the city to come down at one of these times. Hence, it is better for you to write down first and then if you are told to come ahead, do so. Many of the plants are being enlarged as rapidly as materials and supplies arrive.

Savannah's population is now 100,000, with an expected increase of 25,000 within the present year. This has been brought about by the influx of large numbers of people to work for the many large new industries established here. This means more men, women and children to feed, clothe and house. And right here is a chance for the farmer to settle down in Chatham county and raise foodstuffs for which he will always have a good market in Savannah. By farming in Chatham county the farmer is nearer his markets than if he were in some other portion of the state. Already a number of northern farmers have bought land here and are now successfully farming in this county. If you are interested in farming in this county write the Board of Trade who will furnish you with names of agents, list of lands, prices, and all other necessary information.

As time passes the scope of service which the Board of Trade can render you, will be enlarged. The way to enlarge that scope is to put your case up to the organization and let them work out a plan for you. You have already known the truth of the saying that "in union there is strength" but you have never practiced it very much. Try it now and you will find that in union there are better times, more money and greater advantages than under any other system devised. Think it over, and if you have anything to be done, write the Board of Trade.

Incidentally Savannah's plan of reaching the people of South Georgia has attracted wide attention. Not only did the papers that carry the Savannah page comment favorably upon the plan, but many papers used the idea as an argument for more advertising from merchants, while others made it the basis of editorials.

Next month you will be told of some other kinds of service which the Board of Trade and the business people of Savannah can give you.

## 22 Million Families in the United States

IF EACH FAMILY saved one cup of wheat flour it would amount to 5,500,000 pounds, or more than 28,000 barrels. If this saving was made three times a week, it would amount to 858,000,000 pounds, or 4,377,000 barrels in a year.

You can do your share in effecting this saving and really help to win the war by omitting white bread from one meal today and baking in its place muffins or corn bread made according to this recipe:

### Corn Meal Muffins

1 cup corn meal  
1 cup flour  
1 teaspoon salt  
4 teaspoons Royal Baking Powder

2 tablespoons sugar  
No egg  
1 cup milk  
2 tablespoons shortening

Sift dry ingredients together into bowl; add milk and melted shortening and beat well. Bake in greased muffin tin in hot oven about 20 minutes. Same batter may be baked as corn bread in greased shallow pan.

## U. S. INVENTORS TO CONQUER HUN GAS

MOST EFFICIENT MASKS IN EXISTENCE BEING INVENTED BY AMERICANS FOR THE FRONT.

Washington, March 4.—American inventive genius is at the fore again with the most efficient masks in existence to protect officers and men under the Stars and Stripes from the deadly gas attacks of the Germans. The masks are the development of the gas defense service of the medical corps which comprises about a hundred officers and approximately six hundred enlisted men.

Every means is to be directed from this time forward for the constant improvement of the masks and in the training of soldiers in their use, so that the poisoning vapors will have a minimum effect. The production of the masks is progressing at a rate which insures that all American needs will be met.

At each camp and cantonment in the United States is a gas defense school, in charge of a divisional gas officer who works in conjunction with the chemical advisor both trained in theory and practice of meeting gas

offensive. Through these schools every officer and man receives instructions as to the proper means of gas defense.

The use of gas in warfare dates back to about 400 B. C. The Spartans saturated wood with pitch and sulphur and burned it under the walls of cities which they were attacking. For several centuries gas had not been used in warfare, and the Hague convention definitely ruled against it. However, on April 28, 1915, the Germans liberated great clouds of gas against Canadian troops near Ypres.

Terrible destruction and demoralization resulted from its first gas attack and within a week England made arrangements for gas warfare against the Germans. Gas is now an every day part of the war.

**WANTS NINE PAIR OF SHOES FOR MEN SERVING IN FRANCE**

General Pershing has requested shipment of 18,590 pairs of shoes for each 25,000 men monthly, which is approximately nine pairs of shoes per man per year. This quantity is in excess of actual consumption and is being used to build up a reserve for all troops in France. When such a supply is accumulated, the quantities per man will be reduced.

The Quartermaster General's Department now has on hand and due to outstanding contracts, 7,964,000 field shoes and 7,873,000 marching shoes. It will be necessary to secure more than a million additional shoes during the year.

## WHAT ARE YOU DOING TO HELP WIN THE WAR?

The world war is now claiming the attention of all classes of people, and as Wellington said to the English soldiers over a hundred years ago, "England expects every man to do his duty," may well apply today to every American citizen that America expects every man to do his duty. This applies to every man, woman and child. We are facing a great crisis. Shall we fail and be subjects of the Kaiser?

We are in this war, and we are in it to win. Each individual can help, and unless he is willing to help to the extent that he can really feel that he is helping and sacrificing, he is nothing short of a slacker. Now, the government is calling on the women, girls and boys to do their share. The school and the boys between the ages of ten and eighteen are being called on to join the clubs and help produce more food. The world wants food and must have it or America and her associates in war shall go down in defeat. The boys and girls can help produce this food and get profits for themselves besides helping the great cause.

The food that they produce, even if kept in the homes, will save that much food from being bought that can be sent to the allies. The girls can join the canning club and the boys and girls can join the poultry club, and the ladies can join both clubs and help in producing more food.

The canning clubs are organized at the schools and the girls are given instruction in their work by the home demonstration agent. Each girl is to cultivate one-tenth of an acre of land in tomatoes and other vegetables. They are to plant their seed beds now so as to have some early plants. The Stone tomato seed are recommended, but other good varieties, as the Acme, the Globe or Red Field Beauty and Ponderosa may be used. These seed are to be furnished by the girls. The work will be continued throughout the year, and each girl will be expected to carry an exhibit to the county fair. The women are to organize and do work in gardening, dairying and poultry raising. The home demonstration agent will also meet with these ladies' clubs.

The object of forming the girls and boys poultry clubs is to give a better knowledge of the value and importance of the poultry industry and the marketing of first class poultry products, and to teach better methods of caring for poultry and eggs, and to show the increased revenue to be derived from well bred

## Mr. Farmer-

The problem of producing enough food stuffs in this country to feed our armies abroad, our people at home, and at the same time supply a large surplus essential to our allies, has become so acute that the solution of this question may prove the actual turning point in a successful conclusion of the war.

**DON'T YOU THINK IT YOUR DUTY TO YOUR COUNTRY** to go the limit in aiding this situation? If you do, you ought to begin now by buying a good Hereford bull and crossing him with your native cattle, and if you haven't any native cattle, you ought to get some.

The beef stocks and breeding stocks of Europe have become terribly depleted by the war, and when the war is over the United States will be called upon to supply the tremendous shortage in foreign breeding stocks.

**DON'T YOU THINK IT YOUR DUTY TO YOURSELF** to share in the extraordinary profits which this demand will bring about? If you do, buy a few Hereford cows or heifers now and lay the foundation for a purebred herd. If you give them reasonable care you will be amazed to see how rapidly they grow in numbers and in money value.

**LET NO ONE MISLEAD YOU.** The Hereford is the best beef breed. The United States Government, through Farmers' Bulletin No. 612, dated January 21, 1915, said: "As a 'rustler' the Hereford is surpassed by no breed of beef cattle, and they excel the Shorthorns in this respect—they have been recognized as a breed which responds readily to favorable environment as well as being able to thrive under adverse conditions where other breeds would not do well—as a breed they have a better heart-girth, stronger constitution and can withstand adverse conditions better than the Shorthorns—they are early-maturing and fatten readily in the feed lot—on plantations specially, and farms with only fairly good pasture, the Hereford will give better results than the Shorthorn."

**If you are interested, be sure to attend the AUCTION SALE OF FIFTY SELECTED HEAD OF GEORGIA OWNED HEREFORD CATTLE to be held under the auspices of this Association at MILLER UNION STOCK YARDS IN ATLANTA, at 12 o'clock noon, MARCH 29, 1918.**

## SAVANNAH MAN TELLS OF EXPERIENCE WITH GAS

Savannah, March 5.—Frederick Hahn, formerly employed by the Savannah Morning News, who went to France as second lieutenant in the first batch of American soldiers that left this country, has been promoted to a first lieutenant, according to letters received here. He is the first Savannahian under fire with the American contingent. In his letter he says it is hard to get sleep, particularly in view of the bombardments. But, he says, after you have slept through one bombardment, you can sleep through anything. He says the worst part of the warfare is the German gas, but Uncle Sam's men are gradually learning how to cope with that deadly substance. Lieut. Hahn says the boys get fine treatment from their officers, and he speaks glowingly of the French girls.

## OLD PEOPLE'S KIDNEYS

Many Elderly Statesboro Residents Suffer From Some Form of Kidney Trouble.

When past middle age, there frequently comes a noticeable weakening of the organs of the body, and resulting in danger of quick decline. It is quite necessary to give prompt help to any part that first shows signs of wear. Healthy kidneys are necessary to a hale old age. Weak kidneys often bring constant backache, lame back, stitches and twinges of pain, annoying urinary troubles, and the danger of dropsy or Bright's disease. Doan's Kidney Pills are gratefully recommended by very many aged people. Convincing proof of merit in the following testimony:

F. Henry Thompson, Thunderbolt, Ga., says: "While lifting something seemed to give out in my back and I fell to the ground helpless. I soon learned that kidney trouble had been coming on me for years and had now reached a serious point. Severe pains came first in my right kidney and side then extended into my back and left side. I began taking Doan's Kidney Pills and they brought me almost immediate relief. My kidneys were strengthened, the pains were removed and I was soon up and around, a well man. About two years ago I had a slight return of the trouble, but Doan's again fixed me up. Although over seventy years old, I am strong and vigorous and I owe my health alone to Doan's Kidney Pills." ## BEE-KEEPERS MAY FEED BEES ON SUGAR

ARE PERMITTED TO FEED THEIR BEES IN EXCHANGE FOR THE HONEY.

Which is more valuable—prospects of 10 pounds of honey next summer or a pound of sugar this winter and spring? The Food Administration, trusting in the industry of the bee, has decided that even in the face of a world scarcity, bees are entitled to their share.

Bee keepers throughout the country have been reporting to the United States Food Administration their inability to secure sugar with which to prevent starvation among their colonies. Last season was a particularly unfavorable one. Owing to drought and failure of clover and other crops in some sections, the bees were unable to store sufficient food to carry them through the winter. Under such conditions a syrup made from white granulated sugar is needed to feed them. Any kind of food, except when bees are flying frequently, tends to produce a condition of the bees known as dysentery. But some dealers fearing they might violate requirements. Dr. E. F. Phillips, apiculturist of the U. S. Department of Agriculture, estimates that every pound of sugar now fed to starving bees will result in the production of at least ten pounds of honey next season. In many cases the increase will greatly exceed this.

Almost A Young Man Again. E. R. Whitehurst, R. F. D. 1, Norfolk, Va., writes: "I had been suffering for more than a year, but since taking Foley Kidney Pills I feel almost a young man again. They strengthen and heal weakened or diseased kidneys, stop sleep-disturbing bladder ailments, banish backache, rheumatic pains, stiffness, soreness. Sold by Bulloch Drug Co."

## Exceptional Beauty

POWER, speed, comfort and high economy the Grant Six has always had—but to all these the new model adds a degree of beauty never before attained in a popularly priced car.

In giving the Grant Six its new and pleasing lines and in refining the car mechanically, Grant designers and engineers have produced what is unquestionably the finest car of its size and price ever built.

The three features for which the Grant Six has become nationally known—overhead valve engine, cantilever rear springs, full-floating rear axle—will appeal to every motor-wise purchaser. Owners average 20 miles to a gallon of gasoline and 900 miles to a gallon of oil.

The price, \$1055, f.o.b. Cleveland, makes this new Grant Six the car which the spirit of the times demands.

## 2-POUND CHICKENS NO LONGER EXEMPT

ADMINISTRATOR RULES SMALL BROILERS MAY BE EATEN FOR MEATLESS MEAL.

Atlanta, March 4.—Dr. Andrew M. Soule, federal food administrator for Georgia, issued an important ruling Saturday, authorizing the use of mutton or lamb and two-pound chickens on meatless days and for the meatless meal on each of the other days of the week.

Although the new order was announced too late to be received by the county food administration throughout the state, it was given to the newspapers. The ruling follows: "Effective this date and until April 15, the restriction against the use of lamb or mutton on meatless Tuesday, or for the meatless meal each day, is removed."

A further ruling of the state administrator, issued at the same time, which will serve to materially relieve the restrictions on the use of meats which has been found to tend to a very much larger use of fish as a diet, makes it permissible to sell "broilers," though it is still held that pullets must not be sold weighing over two pounds. Ruling on this by the administrator is as follows: "Effective on and after this date the prohibition against the sale of live or freshly killed hens or pullets shall not be construed as apply to broilers weighing two pounds or less each."

Considerable inquiry has arisen in the last few days throughout the state concerning the permissibility to sell "friers" and "broilers." The foregoing ruling has been issued as covering that point, meaning that any poultry weighing not more than two pounds may be killed or offered for sale.

This ruling the administration states, will serve to relieve the narrow scope of meat substitutes for those days and meals on which the use of meat is prohibited and at the same time any danger of the use of fish becoming unpopular because of its too frequent use.

## COMMISSION FAVORS PAROLE FOR MRS. EDNA GODBEE

Special Report Will Be Made to the Governor by Prison Commission.

Milledgeville, March 6.—In a special report that will be submitted to Governor Hugh Dorsey for immediate action the joint penitentiary committee of the Georgia legislature will recommend a parole for Mrs. Edna Godbee, under life sentence for killing her divorced husband and his wife at Millen, Jenkins county, several years ago. This became known here yesterday when the committee completed investigation of the state prison farm and subdivided for a tour of the convict camps of the state.

Considerable inquiry has arisen in the last few days throughout the state concerning the permissibility to sell "friers" and "broilers." The foregoing ruling has been issued as covering that point, meaning that any poultry weighing not more than two pounds may be killed or offered for sale.

This ruling the administration states, will serve to relieve the narrow scope of meat substitutes for those days and meals on which the use of meat is prohibited and at the same time any danger of the use of fish becoming unpopular because of its too frequent use.

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood... I looked with dread from one month to the next. Nothing seemed to help me until, one day, I decided to

GEORGIA—Bulloch County.

To the Superior Court of said county: The petition of W. H. Goff, John B. Goff and F. J. Perkins of Bulloch county, Georgia, respectfully shows:

1. That they desire, for themselves their associates and successors, to be incorporated and made a body politic under the name and style of W. H. GOFF COMPANY, for a period of twenty years.

2. The principal office of said company shall be in the city of Statesboro, Bulloch county, Georgia.

3. The object of said corporation is pecuniary gain to itself and its stockholders.

4. The business to be carried on by said corporation is a wholesale grocery business.

5. The capital of said corporation shall be twenty-five thousand (\$25,000.00) dollars, with the privilege of increasing same to the sum of fifty thousand (\$50,000.00) dollars, by a majority vote of the stockholders. One stock to be divided into shares of one hundred (\$100.00) dollars each. All of the amount of capital to be employed by them has been actually paid in.

6. Petitioners desire the right to sue and be sued, to plead and be impleaded, to have and use a common seal, to make any necessary by-laws and regulations, and to do all other things that may be necessary for the successful carrying on of said business, including the right to buy, hold, and sell real estate and personal property suitable to the purposes of the corporation, and to execute notes and bonds as evidence of indebtedness incurred, or which may be incurred, in the conduct of the affairs of the corporation and to secure the same by mortgage, security deed or other form of lien, for the purpose of loaning to any person or cash or on credit, all such articles and things as are usually embraced in the wholesale grocery business, and all such articles and things as may be profitably handled and sold in connection therewith.

7. They desire for the said incorporation the right of renewal when the term of years shall expire, and that it have all such other rights, powers, privileges and immunities as are granted to corporations or permissible under the laws of Georgia.

Wherefore petitioners pray to be incorporated under the name and style aforesaid, with the powers, privileges and immunities herein set forth, and to be a corporation of similar character under the laws of Georgia.
